Finishes:

Gold – Internal. A classic finish for all internal applications

Bronze – External. A special metallic coating, 2000 hour salt spray tested, provides a very long life in any application. The finish looks beautiful for all timber applications, adding that touch of quality to any job.

Features:

- Stick fit head
- Reduced wobbling and slippage with KTX and square bits
- Suitable for all woods including hardwoods
- Special torpedo thread speeds up fitting and saves up to 50% energy required compared to other collated screws
- Countersinking head with ribs and tips for smooth surface finish and easy fitting
- Fast fixing
- Deep recessed head for good bit contact
- Through hardened for strength
- Significantly reduced splitting for close to edge fitting
- No need for pilot holes
- Sharp starting point

14.4V Impact and Collated Auto Feed Driver

Two tools in one, an impact driver with a massive 170 Nm of torque and with an attachment it converts into a collated autofeed driver for strips of screws. This high specification tool was voted one of Professional Builders 'Best Products for 2006'.

Sizes:

PRODUCT CODE	GAUGE	LENGTH	BOX QTY	FINISH	INTERNAL/ EXTERNAL	SUGGESTED USES
010175	M4.2	50 mm	1000	GOLD	INTERNAL	Flooring – Plywood etc
010176	M4.2	55 mm	1000	GOLD	INTERNAL	Flooring – chipboard etc
010177	M4.2	45 mm	1000	BRONZE	EXTERNAL	Fencing, etc
010178	M4.2	50 mm	1000	BRONZE	EXTERNAL	Decking, fencing, etc
010179	M4.2	55 mm	1000	BRONZE	EXTERNAL	Decking, fencing, etc

The screws will have more uses than just those listed above and the range will be increased even further in future for more applications.

The screws are usable with various collated drivers on the market, but would be ideal to use with Concept's 14.4V impact and collated autofeed driver (see above) as the combination of the screws and power of the driver make for the perfect solution.
